

Splinting made easy

The NorthAid OneSplint is suitable for splinting all extremities. At its core is an ultra thin aluminium sheet encased in a light and skin friendly mouldable foam. It is soft, adaptable and offers optimum anatomical contouring.

Application

The splint becomes rigid and supportive for fractured or injured limbs by shaping it into the required curved shape. Can be cut with ordinary household scissors to fit required size.

Advantages

- + Reusable – Easily to clean and disinfect
- + Radiolucent / Waterproof
- + Foam padded for extra comfort
- + Easily secured with tape, wrap or triangular bandage
